

Border Crossing Points (BCPs) along Haiti- Dominican Republic Border - © IOM 2016

Overview

This document represents a summary snapshot of monitoring activities conducted by IOM and border monitoring partners at the border between Haiti and the Dominican Republic. The monitoring was put in place following the movements observed at the border before and after the 17th June 2015 expiration of the registration component of the National Plan for the Regularization of Foreigners (PNRE¹ in Spanish), established in the Dominican Republic. Monitoring of border movements began as of the first week of June 2015. Up until the 16th of June 2015, figures are based on partial observations of border crossing points. The network was 100% operational as of July 2015. Due to budget constraints, IOM's project is now covering 40% of the border (40 border crossing points) as of 1st July 2016.
